### All Original Features Improved !

#### Load Calculations

Provides comprehensive heating & cooling load analysis with detailed breakdowns of specified conditions and computed results of heat gains and losses. Summary or detailed printouts of loads are user selectable. User input screens and fields are now easier to use and understand.

#### Branch Duct Sizing

Automatically calculates room round duct sizes plus room supply & return grille sizes including C.F.M. 's per grill, multiple returns both room & central. All based on your size & grill preferences you can now change in setup. Now duct & grill sizing your way ! Plus adjust design to actual size!

#### Cooling Operating Costs

Automatically calculates seasonal cooling operating costs based on any S.E.E.R. you enter. Change utility rates for your area. Centers & highlights your seasonal hours of operation & local operating costs based on your preferences you decide in setup.

#### Heating Operating Costs

Automatically compares seasonal heating operating costs between natural gas, electric strip heat, L.P. gas, fuel oil and heat pumps, all at the same time allowing for different efficiencies, costs & fuel energy content on each type.

#### Payback Analysis

Inputs basic equipment information, costs & provides a simple payback your average customer can understand, based on the difference in cost & operational savings.

#### Prepare Bid

Easy, simple to prepare bid based on customer information already entered. "Putting it in writing" has never been easier.

### System Requirements

#### Windows Only

Works with Windows 95, 98, ME, 2000, NT & XP. Program is supplied on a CD-ROM. A CD-ROM drive is required to install program. 3 1/2" disks are available upon special request. For 100% IBM compatible computers. 486 (and higher) processors. Requires a Hard Drive with at least 5 megabytes of disk space available. Works with any printer supported by windows. VGA or higher graphics card required. A single computer user license is included with purchase. Multiple computer user licenses are available.
